ALL-ELECTRIC
I-PACE
Every Jaguar feels like no other car on the road. Moving to all-electric power doesn’t change this. It offers even more opportunities to shape the dynamic performance and dramatic design for which we’re renowned. Jaguar I-PACE is a pure battery electric vehicle (BEV) built from the ground up to embrace these new possibilities.

Radical design conceals an exquisite interior with SUV levels of practicality. A sophisticated, all-electric powertrain provides high performance with zero tailpipe emissions. Its cutting-edge technologies work seamlessly with the car and with you. Thrilling to look at and drive, easy to live with, and connected like never before – I-PACE is the world’s smartest five-seater sports car.
INTRODUCTION
THE ELECTRIC BENEFITS OF I-PACE

“We’ve created I-PACE to represent the next generation of battery electric vehicle design. It’s radical, dramatic, and future-facing – the product of authentic Jaguar DNA matched with beautiful, premium details and British craftsmanship.”

Director of Design, Jaguar.

ELECTRIFYING PERFORMANCE
I-PACE’s linear acceleration is instantaneous with no lag and no gearshift interruptions. It’s 400PS of peak power takes you from 0-100km/h in only 4.8 seconds (0-60mph in 4.5 seconds). For sports car agility, the 90kWh battery is positioned within the floor, between the axles, giving a low centre of gravity and near perfect weight distribution. See page 15 for details.

QUIET REFINEMENT
Electric power is naturally quiet, but we’ve still gone to great lengths to make I-PACE an oasis of calm. Sophisticated motor encapsulation dampens sound while I-PACE’s radical design has been engineered to minimise wind noise. The intrusion of exterior noise is further reduced by acoustic lamination on the front windows. See page 13 for details.

PEACE OF MIND
For added peace of mind, I-PACE’s 90kWh battery is covered by a comprehensive 8 year warranty in addition to your standard Jaguar warranty. What’s more, you’ll always have the full support of our established Jaguar Retailer network and highly-trained technicians who know your Jaguar inside and out. See page 51 for details.

CLEVER USE OF SPACE
I-PACE uses axle-mounted electric motors and concentric single speed transmissions. This creates considerable room within the cabin, giving I-PACE a compact footprint from the outside but space within. See page 12 for details.

EASE OF USE
Clean, convenient, hassle-free – that’s the future of car ownership. Visits to the fuel station will be a thing of the past – I-PACE’s battery can be charged from a conventional socket, a wall box or at a public charging station. So instead of taking time out to recharge, you simply get on with the things you want to do. See page 16 for details.

LOW COST OF OWNERSHIP
Owning I-PACE means that you may be eligible to benefit from incentives such as lower road taxes, reduced city centre tolls, even access to reduced congestion lanes. Additionally, I-PACE’s fewer moving parts can help to reduce servicing and maintenance costs. Visit jaguar.com/incentives to find out more.

RANGE
A single full charge provides a range of up to 470km (292 miles) on the WLTP cycle – more than enough to cover the average weekly commute of 300km (186 miles). See page 16 for details.

1 I-PACE’s 90kWh battery warranty is limited to 8 years or 160,000km (100,000 miles) (whichever comes first). It is redeemable in the case of any manufacturing defect or should a certified Jaguar Retailer measure that the battery has dropped below a 70 percent State of Health. 2 Market dependent. Please contact your local Jaguar Retailer for more information. 3 The figures provided are as a result of official manufacturer’s tests in accordance with EU legislation with a fully charged battery. For comparison purposes only. Real world figures may differ. Energy consumption and range figures may vary according to factors such as driving styles, environmental conditions, load, wheel fitment, accessories fitted, actual route and battery condition. Range figures are based upon production vehicle over a standardised route. 4 This figure has been obtained from the ‘Driving and Parking Patterns of European Car Drivers’ mobility survey, conducted by the European Commission. 5 EV range figures are based upon production vehicle over a standardised route. Range achieved will vary dependent on vehicle and battery condition, actual route and environment and driving style.
ON-BOARD CHARGER
Electricity can be supplied to the car in AC or DC format. To charge the car, I-PACE’s 11kw 3-phase on-board charger converts the electricity to DC.

BATTERY
I-PACE’s 90kWh battery replaces the fuel tank. Its high energy density lithium-ion pouch cells store the car’s energy.

FRONT AND REAR MOTORS
Instead of an engine to drive the front and rear wheels, I-PACE has two efficient and compact Permanent Magnet Synchronous Electric Motors. Independently each motor can deliver 200PS and torque of 348Nm – a total output of 400PS and 696Nm. As well as high performance All Wheel Drive (AWD).

INVERTER
I-PACE’s inverter takes the direct current (DC) stored in the battery pack and turns it into the alternating current (AC) that feeds the motor.

CHARGING SOCKET
A charge point replaces the fuel filler. Just plug in and charge.

VEHICLE SHOWN: I-PACE HSE IN EIGER GREY WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
INTRODUCING JAGUAR I-PACE

JAGUAR DYNAMICS
I-PACE’s driving experience reflects its dynamic design. Using the proven Jaguar setup of a double wishbone suspension at the front and Integral Link suspension at the rear, this is a true driver’s car. Engaging and rewarding handling is balanced with exceptional ride comfort and refinement. See page 15 for details.

ELECTRIC POWERTRAIN
Jaguar’s I-TYPE Formula E racing car and I-PACE both use Permanent Magnet Synchronous Electric Motors and lithium-ion pouch battery cell technology. These motors are small, compact and efficient, which helps to optimise performance and range. See page 16 for details.

ALWAYS CONNECTED
I-PACE’s InControl technologies seamlessly connect you to your car and the outside world. There’s Pivi Pro with the All-new Navigation System1 which displays such features as charging stations and parking spaces, and the Online Pack with Data Plan2, which puts even more relevant information at your fingertips. Apple CarPlay®3 and Android Auto™4 make it easy to use selective apps on the Touchscreen, whilst the Jaguar Remote5 app lets you securely interact with your car from your smartphone. See pages 20-23 for details.

INTEGRATED TECHNOLOGY
At the heart of I-PACE is a ‘floating’ centre console containing our latest infotainment system, Pivi Pro. It makes controlling all the car’s features, together with your connected devices, incredibly simple. And it comes with a 10” Touchscreen integrated into the dashboard, plus an optional lower 5.5” Touchscreen with multi-function dynamic dials. In front of the driver there is a high-definition Interactive Driver Display. Through this you can access our powerful navigation system with range-maximising route recommendations. Optional Wi-Fi Enabled with Data Plan6 enhances the experience. See page 21 for details.

INTERIOR CRAFTSMANSHIP AND SPACE
An electric architecture has allowed our designers to combine luxury craftsmanship with generous amounts of interior space and storage. The absence of a transmission tunnel is an opportunity for a 10,5 litre cubby bin beneath the centre armrest. No conventional gearbox means there is storage within the ‘floating’ centre console perfect for phones and keys. Completing I-PACE’s carrying capacity, the rear loadspace is up to a substantial 1.453 litres7 with the under bonnet front stowage compartment providing an additional 27 litres. See page 33 for details.

EXTERIOR DRAMA
I-PACE’s radical sweeping cab-forward profile, dramatic bonnet scoop and Jaguar signature rear haunches are far more than striking design elements. They form integral parts of the car’s aerodynamics and help deliver a low drag coefficient of 0,29Cd to improve range. See page 8 for details.

---

1 Connected Navigation will require further subscription after the initial term advised by your Jaguar Retailer. 2 Fair use policy may apply. Standard 1 year subscription, which can be extended after the initial term advised by your Jaguar Retailer. 3 Compatible smartphones only. Your car is prepared for Apple CarPlay. The services offered by Apple CarPlay depend on feature availability in your country, please see https://www.apple.com/uk/ios/feature-availability/#apple-carplay for more information. 4 Compatible smartphones only. Your car is prepared for Android Auto. The services offered by Android Auto depends on feature availability in your country, please see https://www.android.com/intl/en_uk/auto/ for more information. 5 Remote contains subscription services that can be extended after the initial term advised by your Jaguar Retailer. The Remote App will need to be downloaded from the Apple App Store/Google Play Store. 6 Fair use policy applies. After 20GB of data is used within a month, data speeds and functionality on vehicle may reduce for the rest of the month. For details of the Fair Usage Policy associated with this feature, please refer to the InControl Pivi Pro Terms at jaguar.com/pivi-pro-terms. Playback time is dependent on streaming provider and the definition of the video content. HD video will significantly increase data usage. 7 Loadspace volume is reduced by 18 litres with Air Suspension.

In car features should be used by drivers only when safe to do so. Drivers must ensure they are in full control of the vehicle at all times.

Pivi and InControl features, options, third party services and their availability remain market dependent - check with your Jaguar Retailer for local market availability and full terms. Mobile network connectivity cannot be guaranteed in all locations. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected.

Apple CarPlay is a Trademark of Apple Inc. Apple Inc end-user terms may apply.

Android Auto is a Trademark of Google LLC.

App Store is a trademark of Apple Inc.

Google Play Store is a trademark of Google LLC.
VEHICLE SHOWN: I-PACE HSE IN EIGER GREY WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
I-PACE’s revolutionary design is both true to the spirit of Jaguar and the I-PACE Concept. From the pronounced front wheel arches to the rear diffuser, every supercar-inspired styling element allows I-PACE to slice cleanly through the air for maximum range and stability. The bold grille curves inwards – reducing drag by channelling air through the bonnet scoop and out, where it passes over a roofline that is curved for maximum efficiency. The roof itself is available in body colour, black contrast paint or panoramic glass. Ensuring that airflow passes smoothly around the entire exterior, integrated deployable door handles sit flush with the car’s sides.

Giving a distinctive on-road presence, I-PACE’s slim futuristic LED headlights feature our optional signature double ‘J’ blade graphic. For even greater visibility and safety at night, choose optional Matrix LED headlights with signature Daytime Running Lights (DRL).

This system maintains continuous use of the high beam, but automatically adjusts the shape of the beam to help avoid dazzling oncoming vehicles. The sleek tail lights are also LED, with the same dramatic Animated Directional Indicators as the headlights.
VEHICLE SHOWN: I-PACE HSE IN EIGER GREY WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
INTERIOR

I-PACE reimagines the classic Jaguar balance of sports car focus and luxury craftsmanship for the digital age. Electric architecture defines the five-seater cabin’s character. The cab-forward design means the front seats are placed further forward. This creates more space between the front and rear seats, giving rear seat passengers added legroom and knee room. Driver and front passenger feel an immediate sense of engagement with the car thanks to form-fitting sports seats. Deepening the sense of driver focus, the instrument panel is low, with minimalist lines wrapped in soft leather. Throughout the spacious interior, beautiful, handcrafted touches reaffirm the cabin’s luxury atmosphere. Rich, solid finishers surround you and fine contrast twin-needle stitching adds tailored sophistication.

INTERIOR SHOWN: I-PACE HSE WITH LIGHT OYSTER WINDSOR LEATHER SEATS WITH LIGHT OYSTER INTERIOR AND LIGHT OYSTER HEADLINING
Whatever combination of materials you choose, their modern feel will complement I-PACE’s stylish, uncluttered environment. To complete the interior, there’s the option of a full-length panoramic glass roof which, thanks to its tint and infrared absorbing laminate construction, prevents strong sunlight, UV light and heat from entering the cabin. As well as flooding the interior with natural light, the panoramic glass roof maintains comfortable cabin temperatures in hot, sunny conditions and keeps the cabin warm in cold climates. At night, the optional Premium cabin lighting accentuates the vehicle’s exquisite details.

The cabin is a sanctuary from the outside world. For outstanding refinement, sophisticated motor encapsulation dampens sound while the sharp exterior design minimises wind noise.

To enhance your sense of wellbeing, simply activate the optional PURIFY button and a specially-designed filter will attract and capture fine particulates from outside the car, such as PM2.5 and airborne allergens like dust and pollen. This ingenious system cleanses the air in the cabin environment by reducing the occupants’ exposure to harmful pollutants, so everyone will be pleasantly comfortable from the moment they step inside. You can also pre-heat or pre-cool the cabin via your Jaguar Remote app*. See page 22 for details.

*Remote contains subscription services that can be extended after the initial term advised by your Jaguar Retailer. The Remote App will need to be downloaded from the Apple App Store/Google Play Store.

App Store is a trademark of Apple Inc.

INTERIOR SHOWN ABOVE: I-PACE HSE WITH EBONY WINDSOR LEATHER SEATS WITH EBONY INTERIOR AND EBONY HEADLINING
PERFORMANCE

POWERTRAIN

Under the skin, I-PACE is radically different from an internal combustion-engined car. Instead of a petrol or diesel engine, it features two extremely lightweight and compact Synchronous Permanent Magnet Electric Motors. Both motors are up to 97 percent efficient when transferring power from the battery to the motor – an internal combustion engine is typically only 30-40 percent efficient when producing power from fossil fuels. They were developed by Jaguar engineers to take advantage of the knowledge experienced and collected from the I-TYPE Formula E racing car.

To deliver maximum power in the smallest possible footprint, the two Synchronous Permanent Magnet Electric Motors are axle-mounted and use concentric single speed transmissions. The motors are also positioned lower in the vehicle, contributing to the low centre of gravity and enhancing I-PACE’s control, handling and agility. It also enables the combination of a spacious cabin with a 656 litre luggage compartment.
Transforming the driving experience, I-PACE’s electric motors are quieter and create fewer vibrations than conventional internal combustion engines – with none of the interruptions normally associated with gear changes. They provide superior operating efficiency, torque delivery and respond immediately to your demands. For electrifying performance, I-PACE delivers up to 696Nm of torque with maximum torque available from zero rpm.

Positioned as low down as possible and right between the axles, I-PACE’s 90kWh battery is constructed of high energy density lithium-ion pouch cells. It’s designed for longevity and supports protracted periods of sustained maximum power.

I-PACE constantly maintains the ideal temperature for its battery using state-of-the-art thermal management systems. For your peace of mind, I-PACE’s 90kWh battery comes with an 8 year 160,000km (100,000 miles) warranty*. At Jaguar, we understand that it takes more than zero tailpipe emissions to drive sustainable change. That’s why, from the earliest stages of I-PACE’s development, we established a comprehensive plan to meet the End of Life Vehicles Directive (ELV) in the European Union. For further information please visit jaguar.com/faqs.

* I-PACE’s 90kWh battery warranty is limited to 8 years or 160,000km (100,000 miles) (whichever comes first). It is redeemable in the case of any manufacturing defect or should a certified Jaguar Retailer measure that the battery has dropped below a 70 percent State of Health.

VEHICLE SHOWN: I-PACE HSE IN EIGER GREY WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
PERFORMANCE TECHNOLOGY

I-PACE is underpinned by an advanced electric vehicle architecture created specifically for this car that delivers excellent driving dynamics while minimising weight. These foundations are paired with a suspension setup proven on F-PACE, XE and XF. The double wishbone suspension at the front and Integral Link suspension at the rear have been tuned to give I-PACE the perfect balance of dynamic handling and refinement.

VEHICLE SHOWN: I-PACE HSE IN EIGER GREY WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
TORQUE VECTORING BY BRAKING
Torque Vectoring by Braking delivers controlled, responsive cornering by reducing near-limit understeer through controlled braking of the inside wheels.

ALL WHEEL DRIVE
The electric All Wheel Drive (AWD) system features two independently controlled motors, one on the front axle and one on the rear. This means that no complex mechanical connection is required between the two axles to deliver AWD capability. The system uses sensors to continually monitor driver inputs and available traction, to calculate the optimum torque delivery at all four wheels to maximise available grip.

ALL SURFACE PROGRESS CONTROL
All Surface Progress Control (ASPC) is a state-of-the-art system that enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including: mud, wet grass, ice, snow and dirt roads. Operating like a conventional cruise control system, it functions between 3.6km/h and 30km/h, enabling you to maintain full concentration on the road ahead.

JAGUARDRIVE CONTROL WITH ADAPTIVE SURFACE RESPONSE1
JaguarDrive Control with Adaptive Surface Response (AdSR) recognises differences between surfaces to exploit the maximum available grip. Drawing on Jaguar Land Rover’s unrivalled expertise with All Wheel Drive systems, AdSR constantly monitors the car’s environment and adjusts the appropriate motor and brake settings. Once selected, AdSR works at all speeds to support you in adverse weather and across challenging surfaces.

LOW TRACTION LAUNCH
For optimum torque control when you move off from a standstill, select Low Traction Launch on the Touchscreen. This system enhances capability in slippery conditions like wet grass, snow and ice. It remains active until the car reaches 30km/h – then I-PACE seamlessly blends back into the selected driver mode.

DYNAMIC MODE AND CONFIGURABLE DYNAMICS
Engaging Dynamic Mode amplifies I-PACE’s sporting character. Throttle response is sharpened, the dampers are stiffened and steering weighting is increased.

The Configurable Dynamics1 system allows you to personalise I-PACE’s Dynamic Mode. Via the Touchscreen, driving characteristics can be changed to Dynamic or left as normal. So whatever combination of throttle sensitivity, steering weighting or damper stiffness you want, Configurable Dynamics allows you to set up Dynamic Mode to suit your driving needs.

ACTIVE SUSPENSION WITH ADAPTIVE DYNAMICS2
The sophisticated optional Active Suspension automatically lowers the car by 10mm when travelling at speeds in excess of 105km/h over extended periods of time, when certain conditions are met. Reducing the space between the car and road improves aerodynamic performance and therefore optimises range.

The Adaptive Dynamics system optimises ride comfort and dynamic body control using continuously variable damping technology. The system monitors multiple sensors that analyse vertical wheel positions, vehicle acceleration, steering inputs, as well as throttle and brake pedal activity to adjust the suspension damping settings. This provides the optimum balance between comfort, refinement and agility.

ELECTRONIC AIR SUSPENSION
I-PACE’s optional Electronic Air Suspension can be lowered or raised at the touch of a button. If improved ground clearance is required, it is possible to raise the suspension up to 230mm. Alternatively, for ease of access the suspension can be lowered. This ensures that I-PACE is prepared for any eventuality.

---

1 Only available with Adaptive Dynamics.
2 Only available with Electronic Air Suspension.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.
CHARGING

Charging I-PACE is convenient and safe. This means you can top up the battery whenever you wish, to ensure your car’s ready for when you need it. It’s completely safe to charge the car in the rain or even when parked in snow as the charging system is entirely self-contained. The battery charge connector is conveniently and discreetly located on the front wheel arch, while the charge port allows access to all common international charging standards. The Timed Charging facility allows you to set specific charging times via the Touchscreen or via your Jaguar Remote App. This lets you take advantage of off-peak electricity tariffs.

PUBLIC CHARGING

On longer journeys, you may need a quick top-up of your battery’s charge to complete your trip. DC rapid chargers are the best way to deliver this – a typical 50kW charger can deliver up to 63km (39 miles) of range in 15 minutes. As the public charging infrastructure improves, I-PACE is equipped to accept up to a 100kW DC charge rate. This means you can easily add 100km of range in the time it takes to have a cup of coffee. Depending upon the service provider, public AC chargers can have a range of outputs.

You can also find convenient charging points at places you may want to stay for several hours – or even overnight – including local shopping centres, hotels and gyms. Every I-PACE comes with a public charging cable (Mode 3 charging cable) as standard. Pull up, plug in, then go enjoy yourself.

DC 100KW UP TO 127KM (78 MILES) OF RANGE IN 15 MINUTES

Timed Charging available from late-2021. A DC rapid charger provides large amounts of energy in a short amount of time. The charging rate decreases as the battery reaches full capacity, therefore in most use cases it is quicker to rapid charge up to 80 percent capacity or for the extended range required. Actual charge times may vary according to environmental conditions and available charging installation. To find out more about charging times in your country, visit jaguar.com/charging for more details. *Market dependent.

Charging times will vary dependent on many factors, including but not limited to: the age, condition, temperature and existing charge of the battery; facility used and duration of charge. The figures provided are as a result of official manufacturer’s tests in accordance with EU legislation with a fully charged battery. For comparison purposes only. Real world figures may differ. Energy consumption and range figures may vary according to factors such as driving styles, environmental conditions, load, wheel fitment, accessories fitted, actual route and battery condition. Range figures are based upon production vehicle over a standardised route.

VEHICLE SHOWN: I-PACE HSE IN EIGER GREY WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
HOME CHARGING
Charging the battery at home couldn’t be easier. For optimum charging, you can install an approved Jaguar wall box1. I-PACE is equipped with an 11kW 3-phase AC on-board charger2, which can fully recharge the vehicle overnight and deliver up to 53km (33 miles) of range per hour.

To ensure that you’re always able to charge I-PACE, the vehicle also comes with a home charging cable, as optional, that can be used with a domestic socket. When linked to a domestic socket, charging rates are slower than a wall box (up to 9.5km (5.9 miles) of range per hour), but are sufficient to cover the average daily commute of 60km (38 miles)3 if the vehicle is charged overnight. Charging information can be accessed by your Jaguar Remote App – see page 22 for more information.

AC 7kW 0-100% CHARGE 12,7 HOURS4
AC 11kW 0-100 % CHARGE 8,5 HOURS2

1Jaguar have authorised charging infrastructure partnerships for all markets in which I-PACE is available. Our infrastructure partners are available to advise of the best solutions for you. Please consult your Jaguar Retailer for further information. 211kW electricity supply is available in most countries. 3This figure has been obtained from the ‘Driving and Parking Patterns of European Car Drivers’ mobility survey, conducted by the European Commission. 4Market dependent.

TECHNOLOGY
INFOTAINMENT

Delivering a wealth of information and entertainment, every I-PACE is equipped with Pivi Pro, our simplest and most intuitive infotainment system ever. It features an at-a-glance layout that enables you to carry out frequent tasks and use commonly accessed features on the home screen, including navigation, phone and media. You can easily customise the layout and add additional information or features.

PIVI PRO
For increased flexibility and efficiency, the standard 10” and optional 5.5” dual high-definition Touchscreens allow the user to view information, while simultaneously being able to interact with additional features. Direct access to cabin and seat temperature controls are also available via the multi-function dynamic dials. For a truly elegant and streamlined appearance, the steering wheel also has hidden-until-lit touch-sensitive switches as standard. One of these switches is programmable, so it can be personalised to your preferences for a host of functions.

INTERACTIVE DRIVER DISPLAY
The high-definition Interactive Driver Display can receive and project a vast amount of driving information, entertainment and active safety data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin sharp graphics. To help you find your way more easily, the All-new Navigation System enables you to display full screen navigation with 3D mapping (where available).

HEAD-UP DISPLAY
To help reduce distraction or the need for you to take your eyes off the road, optional Head-up Display presents key vehicle data such as your speed and navigation directions on the windscreen. It features crystal clear full-colour graphics in high resolution, enabling you to see all driver inputs and information with ease. It can display important phone information from the Pivi Pro Touchscreen such as the name or number of an incoming caller. The feature can be turned on and off dependent on driver preference.

MERIDIAN™ AUDIO EXCELLENCE
Jaguar audio partner Meridian’s technologies have helped ensure that I-PACE is a superb space in which to experience sound. Digital Signal Processing delivers performance that would otherwise require significantly larger speakers, while Cabin Correction tailors the sound to I-PACE’s precise acoustics. Digital Dither Shaping preserves performance details to evoke the emotions of the original recording. Exclusive to Meridian, Trifield™ produces a consistent, concert-like experience for all occupants. I-PACE offers the 400 watts, 11 speaker, 1 subwoofer Meridian Sound System and DAB radio as standard. The 750 watts, 16 speaker, 1 subwoofer Meridian 3D Surround Sound System is offered as an option.

CONNECTIVITY

InControl is Jaguar’s suite of features that connects you to your vehicle and links you seamlessly, and securely, with the outside world. There are a range of packs and features included as standard on I-PACE. Select the appropriate apps and some of the InControl features stay with you, even when you are away from the car, to make sure the Jaguar experience is more enjoyable than ever.

**PINPOINT TOUCH CONTROL**
Pinpoint touch control allows you to interact with information swiftly. The Touchscreen responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch-to-zoom and swipe.

**PERSONALISED HOMEPAGE**
The beauty of Pivi Pro is that it’s so versatile. With room on the home screen for three swipeable panels at any one time, you can set it up to display your preferred choice of features. For example you may want Navigation, Media Player and Phone – giving you the option to customise your homepage with the features you use most and see all the information you need at a glance.

**MULTIMEDIA**
Enjoy a range of multimedia features on the Touchscreen. Connect your device and see details of playlists and music displayed by artist, album and genre.

In car features should be used by drivers only when safe to do so. Drivers must ensure they are in full control of the vehicle at all times.
Pivi and InControl features, options, third party services and their availability remain market dependent – check with your Jaguar Retailer for local market availability and full terms.
Mobile network connectivity cannot be guaranteed in all locations. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected.
**ALL-NEW NAVIGATION**
With Pivi Pro’s All-new Navigation System, you can stay connected to your route with real-time traffic updates and live access to charging points, parking and place information. All displayed in exceptional 2D or 3D detail. Voice guidance automatically mutes during familiar routes so you can enjoy music without interruptions.

You’ll also be able to save your favourite places and use pinch and zoom gestures for simple map exploration. There are new features too, such as ‘machine learning’, which gets to know the roads you prefer and gives you the option of taking different or faster routes. What’s more, regular automatic map updates ensure the maps you use are always accurate and up-to-the-minute.

**Real Time Traffic Information** - Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.

**Online Search** - Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.

**Commute Mode** - Allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.

**Parking Service** - As you approach your destination, you can see where parking is available. Simply tap on your preferred car park and the navigation system updates to direct you to it.

**Online Routing** - While you’re on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.

---

**ONLINE PACK WITH DATA PLAN**
The Online Pack with Data Plan is designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey while remaining connected to the world. It gives you unlimited data via an integrated SIM card, unlimited streaming for Online Media and weather forecasting for your favourite locations up to five days in advance.

**WI-FI ENABLED WITH DATA PLAN**
With Wi-Fi Enabled with Data Plan, you’ll be able to keep in touch with friends and family, and keep everyone entertained with video streaming. Even when you are on the road less travelled. Wi-Fi uses the external antenna for the best possible connection.

REMOTE
The Jaguar Remote smartphone app, available for download, provides information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android™ Wear or the Apple Watch®, this service includes:

Charging Status Information – Stay continually updated with key battery function indicators including charge state, charging status, charge rate, plug state and estimated EV range.

Remote Charging Control – Use your smartphone to remotely start and stop charging, manage charging tariffs and even set the maximum state of charge.

Remote Lock/Unlock – Lock or unlock your doors remotely with the click of a button. Simply press the ‘lock’ button on the Vehicle Security screen of the Jaguar Remote smartphone app to single lock the doors, arm the alarm, fold in the wing mirrors and close the windows. Press the ‘unlock’ button to unfold the wing mirrors, turn on the dipped headlights and cause the hazard lights to flash twice.

Remote Climate – Prepare your Jaguar in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.

Beep/Flash – This feature turns on your Jaguar’s hazard lights, dipped headlights and sounds an audible alert to help you locate your vehicle in a crowded car park.

Journey Tracking – This opt-in feature can automatically record your journey history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be imported to a spreadsheet.

Vehicle Status Check – Check current range levels, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

Jaguar Optimised Assistance – If you break down you can make a direct call to the Jaguar Assistance team by pressing the button on the overhead console or from the Assistance screen within the Jaguar Remote smartphone app.

SOS Emergency Call – In a more serious incident, SOS Emergency Call will automatically connect you to the emergency response team who will notify the emergency services to your location. For peace of mind, this service is provided for the first ten years from date of registration.

1Remote contains subscription services that can be extended after the initial term advised by your Jaguar Retailer. The Remote App will need to be downloaded from the Apple App Store/Google Play Store. *Timed Charging available from late-2021.

In car features should be used by drivers only when safe to do so. Drivers must ensure they are in full control of the vehicle at all times.

Pivi and InControl features, options, third party services and their availability remain market dependent – check with your Jaguar Retailer for local market availability and full terms. Mobile network connectivity cannot be guaranteed in all locations. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected.

App Store is a trademark of Apple Inc.
Google Play Store is a trademark of Google LLC.
APPLE CARPLAY® AND ANDROID AUTO™
Stay connected to your smartphone, even whilst you’re in the car, by screen sharing with the Pivi Pro infotainment system. You can even send messages using voice dictation, staying focused on the road ahead.

Android Auto™ was designed with safety in mind. With a simple and intuitive interface, it is designed to minimise distraction so that you can stay focused on the road. Simply connect your Android smartphone to control compatible apps on the in-car Touchscreen.

Apple CarPlay® is also designed for increased safety, enabling the use of apps while allowing the driver to concentrate on the road ahead. Connect your Apple smartphone to your car to use compatible apps such as maps, messages and music through the Touchscreen.

SECURE TRACKER
Uses tracking technology to alert you to an attempted theft, and signals your vehicle’s location to the relevant authorities, for a timely recovery. Requires included 12-month³ service subscription for the warranty period or optional 36-month⁴ subscription.

SECURE TRACKER PRO
Integrates authentication technology into the key fob. An alert will be sent within minutes to the Stolen Vehicle Tracking Centre if your car is stolen with non-authorised keys. Requires optional 12-month³ or 36-month⁴ service subscription.

---

¹Compatible smartphones only. Your car is prepared for Android Auto. The services offered by Android Auto depends on feature availability in your country, please see https://www.android.com/intl/en_uk/auto/ for more information. ²Compatible smartphones only. Your car is prepared for Apple CarPlay. The services offered by Apple CarPlay depend on feature availability in your country, please see https://www.apple.com/uk/ios/feature-availability/#apple-carplay for more information. ³Secure Tracker and Secure Tracker Pro services require activation and must be in an area with network coverage. Includes service subscription for 12 months and can be upgraded to the warranty period or renewed after the initial term as advised by your Jaguar Retailer. ⁴Secure Tracker and Secure Tracker Pro services require activation and must be in an area with network coverage. Includes service subscription for 36 months and can be upgraded to the warranty period or renewed after the initial term as advised by your Jaguar Retailer.

DRIVER ASSISTANCE

HELPING MAKE DRIVING EASIER
From negotiating city traffic or the motorway, to providing additional safety for you and your passengers, there’s a wealth of innovative technologies available; either as standard, optional or as part of an optional pack. Whichever you choose, you’ll find every feature has been designed and engineered to heighten your enjoyment of the vehicle.

STANDARD FEATURES

Emergency Braking* can help to prevent collisions with other vehicles, as well as cyclists or pedestrians. If a potential frontal collision is detected, a warning is displayed giving you time to take action. A camera at the front of the vehicle monitors at speeds from 5km/h to 80km/h for frontal collisions, 5km/h to 60km/h for pedestrians and from 20km/h to 60km/h for cyclists. If a collision is still anticipated and you have taken no action, this system will apply the brakes to help reduce the severity of the possible impact.

Cruise Control and Speed Limiter allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal, helping to reduce driver fatigue. In addition, the Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired.

Rear Camera provides improved visibility when reversing. To assist with parking, static lines representing the projected path of your vehicle appear on the Touchscreen.

Driver Condition Monitor detects if you’re starting to feel drowsy by monitoring steering inputs, brake and throttle pedal activity to give you an early warning when you need to take a break.

Lane Keep Assist* detects when your vehicle is unintentionally drifting out of your lane and applies a corrective torque to the steering wheel, encouraging you to guide your vehicle back.

Traffic Sign Recognition keeps you informed and aware on the road, by displaying speed limits and no overtaking signs in the instrument cluster, where they can easily be seen.

Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle’s speed accordingly by using the cruise control system.

Front and Rear Parking Aid makes manoeuvring easier. Simply select Reverse, or activate via the Touchscreen. On-screen graphics and audio feedback will indicate your proximity to any possible obstacles nearby.

*Market dependent
All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.
OPTIONAL FEATURES

**3D Surround Camera** uses four different inbuilt cameras to deliver an innovative, third-person visualisation of your I-PACE. New 3D perspectives and a 360° overhead view make manoeuvring easier.

**OPTIONAL PACKS**

**BLIND SPOT ASSIST PACK**

If you’re changing lanes, leaving a space or just getting out of the car, Blind Spot Assist Pack alerts you to approaching vehicles in those hard-to-see situations.

*Blind Spot Assist* can help you prevent collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, a small warning light illuminates in the corresponding wing mirror. Corrective torque is also applied to the steering wheel, encouraging you to guide your vehicle away from the approaching vehicle.

*Rear Traffic Monitor* is particularly useful when reversing out of a parking bay, the system warns you of vehicles, pedestrians or other hazards, approaching from either side of your vehicle. It will alert you with both audio and visual warnings so you know what’s behind you even when the view is obstructed.

*Clear Exit Monitor* alerts passengers leaving the vehicle from the rear doors to any approaching cars, cyclists or other hazards. If an incoming obstacle is detected, a warning light will flash on the door. The light will immediately go off when it is clear to open the door.

*Included within SE and HSE specification packs. Market dependent.*

**PARK ASSIST PACK**

Park Assist Pack makes car parking easier by steering your I-PACE into a suitable space. It also performs braking, gear changing and accelerating functions. Simply press park and the car will do the hard work for you.

*Park Assist* makes parallel and perpendicular parking easier. It automatically detects any available spaces and steers the vehicle into and out of them - parking the car for you. Graphics and notifications guide you through the manoeuvre.

*3D Surround Camera* uses four different inbuilt cameras to deliver an innovative, third-person visualisation of your I-PACE. New 3D perspectives and a 360° overhead view make manoeuvring easier.
OPTIONAL PACKS

**DRIVER ASSIST PACK***
This optional pack offers a wide range of driver aids, including those found in the Blind Spot Assist Pack, plus Adaptive Cruise Control with Steering Assist and Rear Collision Monitor. Together, they make motorway driving and heavy traffic situations easier, safer and much more enjoyable. The cruise control system achieves this by gently assisting acceleration and braking, while maintaining a set distance from vehicles ahead.

*Included within HSE specification pack.
Adaptive Cruise Control with Steering Assist works with you: as you keep your hands on the wheel anticipating the road ahead, the system uses a camera and radar to track vehicles and lanes in front of you and assists with steering, braking and acceleration. You are always in control.
EFFICIENT TECHNOLOGIES

FLOW ENHANCED DESIGN
The flow enhanced design of I-PACE, with its 0.29Cd drag coefficient, maximises aerodynamic efficiency and range. At the front, the top of I-PACE’s grille curves inwards – enhancing aerodynamics by drawing air through the bonnet scoop. The slender spoiler* and flush door handles keep airflow running smoothly over the car. Aerodynamically optimised side skirts also blend form and function by channeling air more efficiently around the wheels. At the rear, the squared off corners optimise aerodynamic performance by encouraging air to detach cleanly and efficiently from the car in a controlled way that minimises the pressure differences that cause drag.

HIGHLY EFFICIENT ELECTRIC MOTORS
Efficient use of its battery energy helps give I-PACE strong performance and range figures. I-PACE’s electric motors are up to 97 percent efficient whereas an equivalent internal combustion engine is typically only 30-40 percent efficient.

ACTIVE VANES
To give the optimum balance between cooling and aerodynamics, Active Vanes open when cooling of the batteries is required, but close when not needed to smooth airflow.

ECO MODE
Eco Mode helps optimise I-PACE’s range on long drives. This mode modifies the car’s settings to reduce energy depletion as well as encouraging a more efficient driving style by displaying a ‘driving style rating’ in the message centre. Eco Mode can make subtle changes to cabin heating and cooling, the amount of air recirculation and to a number of the car’s features. If required, the driver can override these changes by normal operation of each feature or via the menu settings.

ACTIVE SUSPENSION WITH ADAPTIVE DYNAMICS
To improve aerodynamic performance and range, I-PACE’s optional Active Air Suspension lowers the car by 10mm when travelling at speeds in excess of 105km/h. See page 15 for details.

ENHANCED BRAKE REGENERATION SYSTEM
As soon as the driver lifts off the accelerator, the Enhanced Brake Regeneration system in the motors efficiently converts available kinetic energy to electricity to charge the battery. Driving in heavy traffic is also simpler – using the Touchscreen, you can raise the level of regenerative braking. The corresponding increase in deceleration means that, in stop and go traffic for example, there is far greater control of the car’s speed using only the throttle.

HEAT PUMP
I-PACE’s highly efficient heat pump maximises real world EV range, without compromising on passenger comfort. The heat pump is also significantly more energy efficient than a conventional automotive heating system. It harvests heat from the outside air and electronic components of I-PACE. The collected heat transforms a special liquid within the heat pump into a gas, which causes it to rise in temperature. The warmth is transferred to the cabin via the heating and ventilation system, reducing the power demand from the vehicle battery and maximising range – even in freezing winter conditions, when you need it most.

*Optional feature.
VEHICLE SHOWN: I-PACE HSE IN EIGER GREY WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)
SAFETY

Safe and Secure

Designed for optimum safety, I-PACE has been engineered to include a wealth of features not only to help protect you and your passengers, but to actively help prevent accidents from happening. Sure-footed All Wheel Drive (AWD) capability helps you stay firmly planted on the road, whatever the weather or environment throws at you (see page 15 for details).

Dynamic Stability Control (DSC) monitors I-PACE’s dynamic behaviour, intervening to maximise vehicle stability. DSC reduces motor torque and applies braking to the appropriate wheels to correct the vehicle’s direction of travel by counteracting understeer or oversteer.

Electronic Traction Control (ETC) optimises traction and stability by controlling wheel spin. The ETC system reduces torque to the spinning wheel, then applies braking to the wheel, if required.

Motor Drag Torque Control mitigates the chance of wheel lock-up caused by strong regenerative braking in slippery conditions. It acts by briefly increasing torque to the driven wheels as appropriate.

Roll Back Protection ensures you do not roll backwards as you pull away on an incline.

Roll Stability Control (RSC) is integrated with DSC to reduce the possibility of rollover, while providing agility and ability to steer around obstacles. It monitors the vehicle motion and cornering forces to detect any potential risk of rollover. When risk is detected, braking is applied to the outside front wheel to reduce forces which contribute to rollover.

Emergency Brake Assist (EBA) understands when you apply the brakes quickly but without the necessary force to maximise stopping performance. It therefore boosts the brake pressure through the ABS pump to ensure you stop in time. To help reduce the risk of a collision, the emergency brake lights automatically activate the hazard warning lights during emergency braking*.

Emergency Braking gives an audible forward collision warning should a potential frontal collision be detected. Visual warnings follow. If you take no action, the system applies the brakes to help reduce the severity of the possible impact. See page 24 for details.

Anti-lock Braking System (ABS) allows the vehicle to maintain traction with the road surface while braking and prevents wheels from locking - thereby retaining the vehicle’s ability to steer. The system helps to shorten the braking distance.

Electronic Brake-force Distribution (EBD) automatically varies the braking force to each axle in order to minimise stopping distance, while still maintaining stability and the vehicle’s ability to steer.

All-round exterior LED lighting is standard on every I-PACE. LEDs are more energy-efficient and produce a light close to daylight conditions for less tiring night-time driving. I-PACE’s optional headlights feature signature Daytime Running Lights. At low speeds, optional Static Cornering Lights illuminate the area you are turning into. Auto High Beam Assist (AHBA) automatically dips the main beam for oncoming traffic. Optional Matrix LED headlights enable an Adaptive Driving Beam which works to increase visibility in all conditions. Animated Directional Indicators*, which help other road users recognise your intended direction of travel sooner, are available with optional Matrix LED headlights.

*Market dependent.
DEPLOYABLE PEDESTRIAN SAFETY SYSTEM
An advanced front bumper sensor will, in the event of a collision, discriminate between a pedestrian and other objects. The sensor then activates the deployable Pedestrian Protection System and provides a zone to cushion the impact.

EXTERNAL SOUND SYSTEM (ESS)
As the electric powertrain of I-PACE is almost silent at low speeds, an external acoustic signal is emitted under 20km/h to help make pedestrians aware of the car’s presence.

ISOFIX AND AIRBAGS
To improve safety, two ISOFIX points for baby/child seat restraints are fitted on each side of the rear seats and a comprehensive system of six airbags including driver and passenger airbags, side curtain and thorax are standard.

CHARGING/BATTERY SYSTEMS
The car will not engage Drive while the charging cable is plugged in and a warning message will be displayed on the Interactive Driver Display.

SAFETY CELL
Designed for optimum safety, I-PACE utilises a combination of aluminium and steel to form a rigid cage around the occupants as well as the battery.
EVERY DETAIL RECONSIDERED

I-PACE’s space-efficient electric architecture offered numerous opportunities to create a highly practical interior – and we seized every one of them. Our designers have been able to place the front seats further forward, towards the space where the combustion engine would normally be, without compromising the driving position. This means there’s a greater distance between the front and rear seats, giving rear seat passengers added legroom and comfort. Behind the rear seats, the loadspace is a substantial 656 litres with a length of 967mm.

As the motors are integrated with the axles, the absence of a transmission tunnel has created space for a 10.5 litre cubby bin under the front centre armrest. It also means the floor of the interior is almost flat, leaving legroom for a passenger sitting in the middle rear seat. There’s convenient storage space under the full width of the rear seats too. And because electric motors don’t require a conventional gearbox, we’ve used this space to create room in front of the console perfect for phones and keys. If you need more room, both deep front door bins have been sculpted to carry a range of items. Completing I-PACE’s carrying capacity is a front storage compartment that provides 27 litres of additional stowage.

I-PACE has plenty of handy places to connect your smartphone, tablet or other mobile devices. The centre console storage mat also doubles up as a wireless device charging pad with phone signal booster. This optional feature means you and your passengers can charge your devices at the same time. Beneath the optional 5.5” Touchscreen you’ll find a USB port. Inside the rear console, there’s a 12V power socket and two USB sockets.

Water and shockproof, all-new Activity Key lets you unlock, lock and start your vehicle. So whatever activities you and your friends have planned, there’s no longer a need for conventional car keys.

---

1 Loadspace volume is reduced by 18 litres with Electronic Air Suspension. 2 Market dependent. Compatible smartphones only. 3 Activity Key can be charged in 1 hour, providing up to 7 days battery life. 4 The activity key can only start the vehicle if Keyless Technology is available and activated.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

STANDARD FEATURES ON JAGUAR I-PACE S

**EXTERIOR FEATURES**
- LED headlights
- Automatic headlights
- 3-flash lane change indicators
- LED tail lights
- Rear fog lights
- Automatic Headlight Levelling System
- Follow me home lighting
- Gloss Black lower front blades
- Body-coloured door mirror caps
- Gloss Black door claddings
- Chrome side window surround
- Rear bumper with Gloss Black valance
- Body-coloured roof
- Heated door mirrors with approach lights
- Flush exterior door handles
- Acoustic laminated windscreens
- Infrared reflective windscreens
- Rain sensing wipers
- Heated rear window with timer
- Headlight power wash

**WHEELS AND TYRES**
- 18" Style 1022, 15 spoke, Gloss Sparkle Silver
- Tyre Repair System
- Tyre Pressure Monitoring System (TPMS)

**INTERIOR FEATURES**
- Push Button Start
- Two-zone Climate Control
- Cabin Lighting
- Auto-dimming interior rear view mirror
- Sunvisors with illuminated vanity mirrors
- Overhead lighting console
- LED rear reading lights
- Overhead stowage for sunglasses
- Fixed front armrest with storage
- Front and rear cupholders
- Row 2 underseat stowage
- Rear armrest
- Air Quality Sensor

**SEATING AND INTERIOR TRIM**
- Luxtuc sport seats
- 8-way semi-powered front seats
- Split rim leather steering wheel
- Gloss Black trim finisher
- Light Oyster Morzine headlining
- Metal treadplates with Jaguar script
- 40:20:40 folding rear seats with centre armrest

**DYNAMICS**
- All Wheel Drive (AWD)
- All Surface Progress Control (ASPC)
- Hill Launch Assist
- JaguarDrive Control
- Electric Power Assisted Steering (EPAS)
- Open Differential with Torque Vectoring by Braking
- Dynamic Stability Control
- Coil suspension
- Passive suspension
- Electric Parking Brake (EPB)
- Low Traction Launch
- Enhanced Brake Regeneration
- Active Vans

**CONVENIENCE**
- Front stowage compartment
- Jaguar Smart Key System™ with Keyless Entry
- Electric cabin pre-conditioning
- Lockable glovebox
- Luggage tie-downs in loadspace
- Luggage hooks in loadspace

THE WORLD OF JAGUAR

Your Jaguar drives with an instinct for performance, refined through decades of innovative design and engineering. Power and agility are combined with elegance and grace to deliver a vehicle like no other. As a celebration of Jaguar, we’ve created a range of experiences, publications and the Jaguar Lifestyle Collection. To top it all, we’ve even returned to the track with Jaguar Racing. Welcome to a world where every aspect of performance is an art.

EXPERIENCE DRIVES

There’s no better way of understanding the spirit of Jaguar than by getting behind the wheel. Jaguar Experience Drives are an opportunity to unleash the breathtaking performance of our incredible Jaguar range. Join us at one of our Experience centres, or take part in the Art of Performance Tour. New sensations await.

jaguar.com/experience

JAGUAR LAND ROVER ICE ACADEMY

Take your driving to the next level with Jaguar Land Rover Ice Academy. Located on one of the many frozen lakes in Arjeplog, Sweden, your driving skills will be tested through tackling some of the harshest, most challenging tracks on the planet. It’s a rare chance to dance on ice and glide around awe-inspiring corners, all under the expert guidance of our instructors. Encounter the true exhilarating potential of the latest Jaguar and Land Rover vehicles in extreme conditions.

jaguar.com/ice-academy
ABB FIA FORMULA E

Jaguar’s reputation for performance, technology and design was forged at the world’s most challenging circuits and championships. From Le Mans to Formula 1, and now Formula E, the grid is our test bed. Formula E provides the perfect proving ground for electric vehicle technology in a high performance environment. The racing series accelerates the development of Jaguar’s electric powertrains. With every race, Formula E helps Jaguar engineers to create better electric vehicles.

jaguar.com/jaguar-racing

SPECIAL VEHICLE OPERATIONS

With outstanding performance, cutting-edge technology and incomparable luxury, Jaguar is a showcase for the finest in design and engineering. Special Vehicle Operations takes this even further. Adorned with the SV badge, halo models and limited-run collector’s editions are the very pinnacle of the Jaguar range, offering a combination of the ultimate in power and dynamics.

jaguar.com/svo
Our latest range of apparel and lifestyle accessories is inspired by Jaguar’s rich heritage, racing expertise, and iconic designs. This exclusive, impressively executed collection follows the performance-orientated style that is Jaguar.

[link to collection]

This is our own vibrant, cosmopolitan and contemporary magazine. Go behind the scenes at Jaguar and explore our dedication to performance, design and innovation – as well as catching an insight into the world of luxury, style and travel. You can enjoy The Jaguar magazine twice a year, completely free of charge for the first three years of ownership. Ask your local Jaguar Retailer to ensure that you receive your copy.

AT YOUR SERVICE

As well as providing a range of exclusive services and lifestyle products, the World of Jaguar makes owning and driving carefree and easy.

BATTERY WARRANTY
For your added peace of mind, I-PACE’s 90kWh battery comes with an 8 year or 160,000km (100,000 miles) warranty*.

GENUINE PARTS
Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for your I-PACE to contribute to optimum performance and to help maximise its lifespan.

FLEET & BUSINESS
Jaguars are dynamic and distinctive cars that help companies express the unique character and personality of their business. We are committed to providing customer-focused aftersales services, ensuring that every Jaguar performs to the highest standard and in the most cost-efficient way for businesses. Visit jaguar.com/fleet-and-business for more information.

JAGUAR ASSISTANCE
Jaguar Assistance provides assistance in motoring emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

JAGUAR FINANCIAL SERVICES
New or used, for personal or business use, we have a finance option that puts you in complete control. Please speak to your local Jaguar Retailer to find out more.

INSURANCE
I-PACE’s key components are easily accessible for time-efficient service and repair costs. With a focus on lower repair costs, I-PACE delivers competitive insurance group ratings. To find out more about the compelling business case for I-PACE, please contact your local Jaguar Retailer.

IMPORTANT NOTICE
Important note on imagery & specification. We are living through exceptional times. Due to the Covid pandemic we have been prevented or delayed in the creation of new images of current model years. Now the global impact of micro-chip shortages is further affecting build specifications, options and launch timings. Until this unique event settles, please note that many images cannot be updated to 22 model year specifications. Features, options, trim and colour schemes will differ from many images.

Customers are urged to consult your local Retailer for detailed 22 model year specifications and do not base an order on marketing imagery and specification alone.

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles, parts and accessories and alterations take place continually, and we reserve the right to charge without notice. Some features may vary between optional and standard for different model years. The information, specification, engines and colours on this website are based on European specification and may vary from market to market and are subject to change without notice. Some vehicles are shown with optional equipment and retailer-fit accessories that may not be available in all markets. Please contact your local retailer for local availability and prices.

COLOURS
Image colours reproduced here are provided for illustrative purposes only. Colours reproduced on-screen may therefore vary compared to the actual finish. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Jaguar Retailer. Distributors and retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

ENVIRONMENTAL INNOVATION AT JAGUAR
Jaguar is committed to reducing dependency on fossil fuels, using fewer natural resources and creating less waste as part of our approach to responsible and sustainable business development. Search ‘Jaguar Environmental Innovation’ for more details.
